# 93

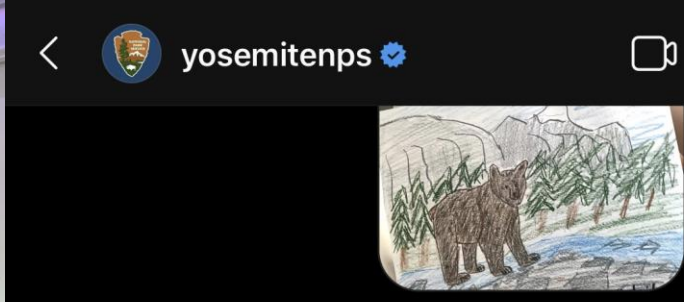

of you completed last week's Mental Break Assignment (MBA).

**THANK YOU** so much for taking a chance with this nontraditional assignment. I read very positive comments about working on the assignment.

**I LOVE YOUR BEARS!** I really appreciated all who participated and the folks who did more by adding color and scenes.

As I stated, me looking at those assignments with your smiling faces was really an uplifting part of my week! I still have more to review.

I already shared some with the rangers at Yosemite. See what they said....

Friday 12:31 PM

Message...

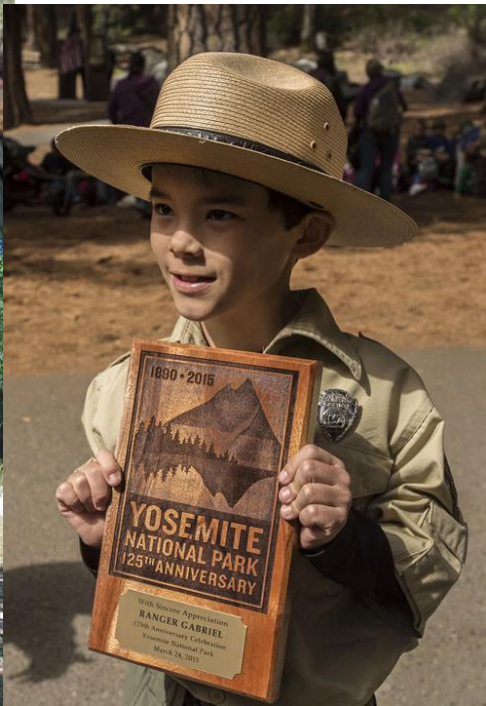

Our assignment allowed us to take a mental break which was AWESOME!

We also made an impact on the National Park Ranger who commits to a life of work in protecting Yosemite, educating visitors, and many other activities.

Who are the rangers?  
What do they do?
